

Compatibility Guide for Avi Multi Cluster Kubernetes Operator

Avi Technical Reference (v21.1)

Compatibility Guide for Avi Multi Cluster Kubernetes Operator

[view online](#)

Overview

The Avi Vantage Platform integration with Kubernetes/OpenShift provides an operator called Avi Multi-Cluster Kubernetes Operator (AMKO) to facilitate multi-cluster application deployments.

Support for Kubernetes/OpenShift

For Kubernetes Clusters

The AMKO version 1.5.1 support for Kubernetes/OpenShift is as below:

Component	Versions Supported
Kubernetes	Version 1.16 and higher
AKO	Version 1.5.1
Avi Controller	20.1.4-2p3+

For OpenShift Clusters

Components	Version
OpenShift	4.4+
AKO	1.5.1
Avi Controller	20.1.4-2p3+
